

US Quick Connect

EIA Fact Sheet

US Quick Connect – Only at EIA Seamless Travel to 13 US Destinations

Travelling to the United States for business or pleasure? Edmonton International Airport provides non-stop access to 13 major US destinations – and that number continues to grow. And with EIA's US Quick Connect service, stateside travel has never been quicker, easier and more relaxed.

At other airports, Canadian passengers travelling to US destinations have to retrieve their bags and re-check them in with their airlines before entering US Customs.

US Quick Connect saves you this hassle, allowing you instead to relax and enjoy the many shopping and

dining amenities available at EIA's new US Departures Lounge.

With Quick Connect, passengers arriving at EIA can proceed directly to their connecting flights by way of the US Quick Connect security station at US Customs. Bags will be directly transferred to the US baggage room for security screening and then loaded onto connecting flights.

Choose EIA – for quick, easy, hassle-free travel to an ever-expanding network of destinations across the United States.
