

CARGO VILLAGE ANNOUNCEMENTS

Edmonton International Airport (EIA)'s Cargo Village is pleased to welcome another major tenant to the new airside multi-tenant cargo warehouse and office building. This addition is a milestone on several fronts including reaching 100% occupancy for this airside property. Through this expansion, DHL Express is tripling their operational footprint at EIA and will move into the new facility in the coming weeks in preparation for 2013 holiday peak operations. This significant expansion coupled with improved operational efficiencies provided by the new facility, positions DHL for continued cargo volume growth at YEG.

NEW FREIGHT FORWARDER BUILDING

Runway Developments has begun construction on the new custom-built freight forwarding building including office and warehouse space. The first phase 30,000 sq ft building will be located on 5 acres of land within close proximity of the CBSA facilities in the cargo village. Discussions with interested local and out of province freight forwarders have commenced. Any additional interested parties should contact Mr. Alex Lowe, Manager Cargo Business Development EIA.

EIA & PANATTONI PARTNERSHIP

EIA has entered into a long term partnership agreement with Panattoni Developments for light industrial development at the Cargo Village. Panattoni Developments is a commercial real estate development company specializing in industrial, office and retail projects. The company has the depth, expertise and capacity to quickly respond to the demands of its clients. Panattoni provides users multi-market solutions and completes quality projects on time and within budget, including warehousing and logistics facilities for freight forwarders, custom-built for the users.

ROADS. RAILS. RUNWAYS.

CONNECTING PEOPLE, IDEAS & GROWTH OPPORTUNITIES IN THE CARGO SUPPLY CHAIN

Edmonton International Airport (EIA) and the Canadian International Freight Forwarders Association (CIFFA) hosted over 250 cargo, shipping and logistics leaders from across Canada and beyond at the Roads. Rails. Runways. Cargo Conference. Highlights also included oil sands flyovers for out-of-province guests and tours of the Leduc-Nisku Business Park, North America's second largest energy park north of Houston.
