

## ENVIRONMENTAL POLICY

Responsible Office:	EP&OC
Approved by:	Executive Management Committee
Application:	All Employees
Effective Date:	September 5, 2017

### Overview

Through our corporate core value of sustainability, Edmonton Airports (EA) is committed to being a responsible steward of the environment. We at Edmonton Airports understand that protecting the environment is in the best interests of our employees, customers, stakeholders and community.

### Purpose

This Environmental Policy encourages continuous improvement of the corporation's effective environmental performance while balancing financial and social considerations against environmental efforts, and fully supports EA's Vision, Mission and Core Values.

### POLICY

To successfully and sustainably implement this policy, EA shall:

- Comply with all applicable environmental laws and regulations
- Minimize risk and contribute to improved economic performance through the implementation of environmental plans and programs that are appropriate to the nature and scale of EA's airports
- Set environmental goals and report our performance publicly
- Plan and grow our properties and facilities in a sustainable fashion, by ensuring environmental considerations are included in every development decision

- Actively pursue carbon management and energy efficiency, pollution prevention, and waste reduction programs, where appropriate, to reduce our impact on the environment and maximize operational cost effectiveness
- Encourage and support prudent environmental principles and practices within our supply chains
- Communicate with employees, regulatory agencies, customers, and community regarding our environmental activities.

Tom Ruth  
President & CEO, Edmonton Airports
