

Plaza Premium Lounge

EIA Fact Sheet

PLAZA PREMIUM LOUNGE

Looking for a quiet, comfortable place to unwind between flights? Need to catch up on that presentation or report? Edmonton International Airport's two Plaza Premium Lounges provide travellers in transit with first-class comfort and amenities at very reasonable prices.

Plaza Premium Lounges are the world's first 'pay-in lounges' open to all air travellers regardless of airline or class of travel. EIA has two such lounges, one in the US Departures Lounge near Gate 88 and another in the new Domestic-International Departures area across from Gate 52. Edmonton is just the third North American city to join the Plaza Premium network.

Plaza Premium Lounges offer guests comfortable seating, business workstations (with Internet access), showers, newspapers and magazines, television and delicious food and beverages. These include hot and cold entrées, soup and salad bars and a range of alcoholic and non-alcoholic beverages.

Plaza Premium Lounge Management Ltd. is a Hong Kong-based company that operates more than 90 lounges at 21 airports around the world. These include Hong Kong, Beijing (Capital), Shanghai (Pudong), Guangzhou, New Delhi, Hyderabad, Singapore, Kuala Lumpur, Toronto, Vancouver and Edmonton.

Further information on the Plaza Premium Lounge network can be found at plaza-network.com.
